

ORGANIZING IS THE I.A.M.'s TOP PRIORITY!

IT SHOULD ALSO BE YOURS!

It is no coincidence that America's Middle Class is shrinking. The Big Business Bosses are trying take over our Country to diminish our freedoms and values. The only way to stop these Big Business Bosses is by the employees taking control of their work place. Belonging to a Union is a right and a privilege that everyone should have the opportunity to enjoy, but millions of workers in the United States have been denied this right. Many of your family members, friends and neighbors work for these Big Business Bosses and need the help that only Organized Labor can give to them. You can help these people obtain the opportunity to have a voice in their work place and help the middle class take back what we have worked so hard to build throughout the years. By building Union density you build strength to protect each of our children and grandchildren's future.
